

EMILIO'S SPECIAL COMBO

The Emilio's Special Combo is an all solid fuel fired (wood and/or charcoal) grill and rotisserie combination that features a generously-sized front grill combined with a four to eight spit rotisserie, depending on the size you select. It is a great unit to use where space is limited. *Like the Milano Arosti, it blends tremendous flexibility with floor space economy.* Meats on the slowly turning rotisserie are imbued with the flavor and aroma of the wood or charcoal. When placed in customer view, this makes the rotisserie items on your menu irresistible. Our solid fuel units are renowned in the industry (and loved by chefs) for their high grill surface temperatures. The secret is the incredible hot, live fuel fire contained in the lower body. Our unique Chef Cool[®] design keeps this heat inside the grill, where it belongs.

There are many options available on the Emilio. While the standard size is 48 inches wide by 42 inches deep, we can customize the size to fit your needs. You have your choice for the front upper finish and many customers choose a colorful ceramic tile front (at no extra cost) to complement their decor. Another popular option, if your floorplan will permit it, is to add rear loading doors for the rotisserie.
